May 2026 Day of Opportunity – Planning Overview

Overview

The May 2026 Day of Opportunity is a straightforward event. We bring in organizations like yours that have resources to offer, and we bring in people who need those resources. The goal is simple. People connect directly with your organization and get the help they need in one place.

As a vendor, you will arrive and set up a table. Table placement is first come first serve, but we will make sure you have a spot once you confirm your attendance and we confirm your space. We will provide a limited number of canopies. If you would like to bring your own, just let us know.

Part of the purpose of this event is to show both the community and our partner organizations that we are building toward becoming a resiliency center. Our goal is to serve as a reliable hub that connects people to resources and supports them when they need it most.

We are in the process of adding solar power, EV charging stations, and other improvements that will allow us to support the community during power outages, heat waves, and other emergencies. This work is about making sure people have access to help not just at events like this, but year round.

Event Schedule

8:30 AM – Early staff arrive to clear the parking lot and begin BBQ setup.

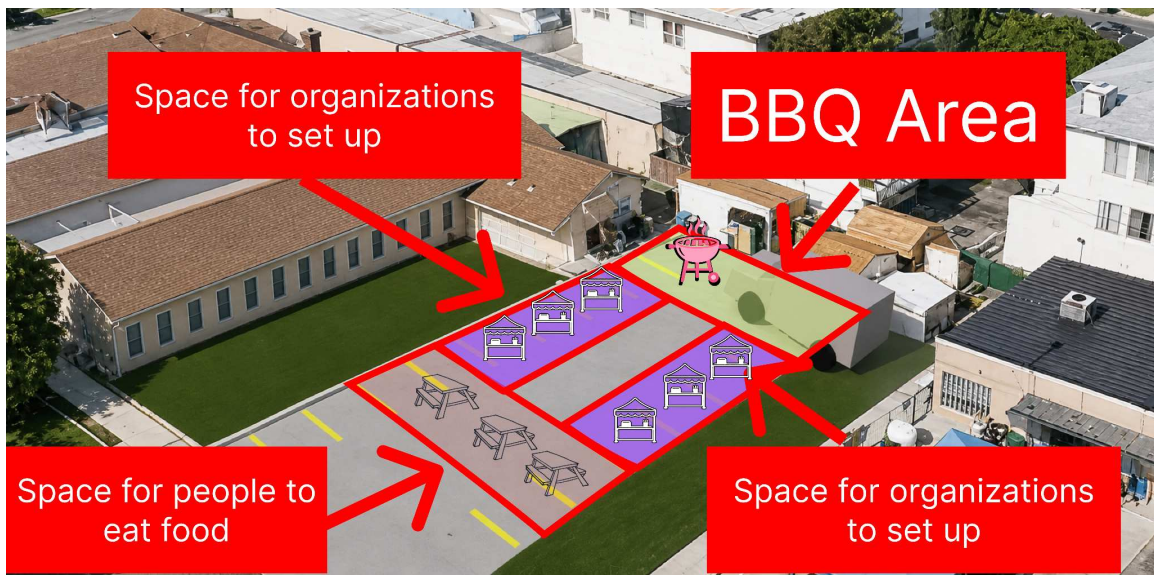

9:00 AM – Vendors arrive and begin setup.

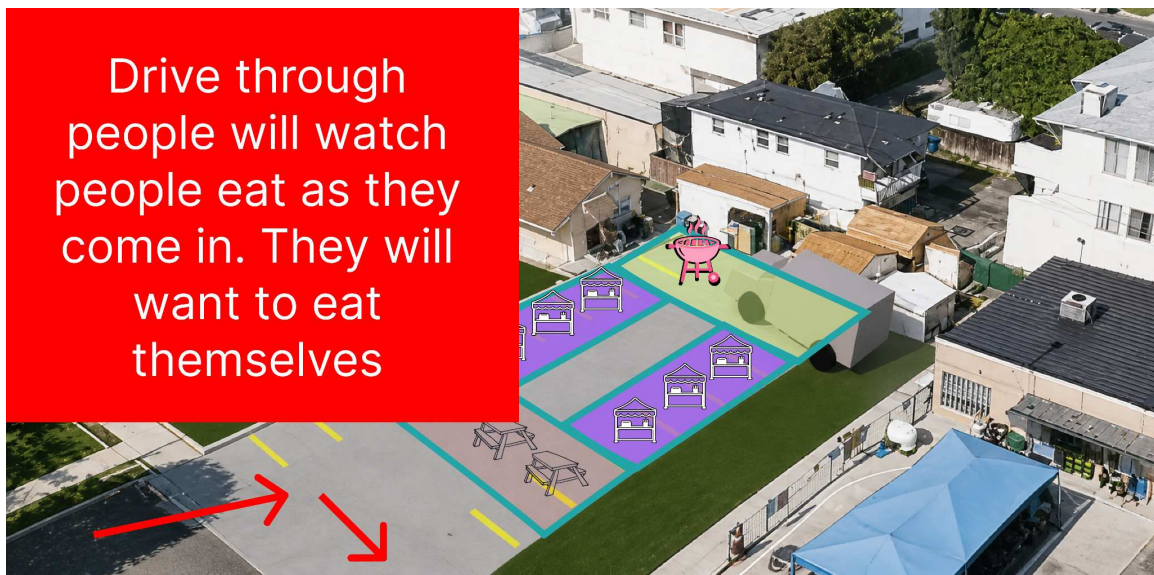

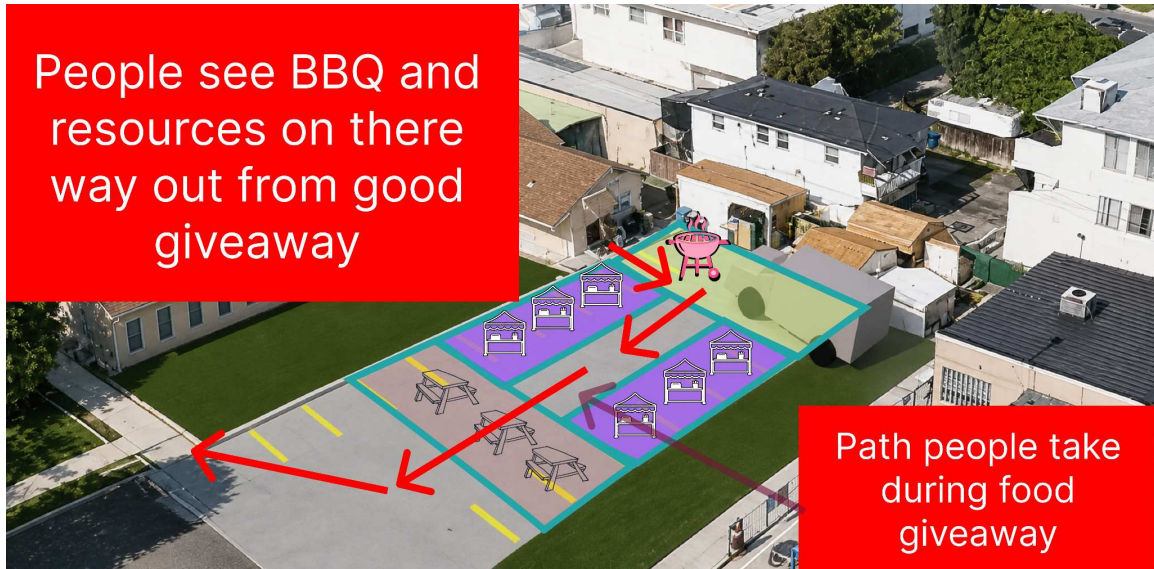

10:00 AM – Event begins and food service starts.

2:00 PM – Event concludes.

Site Layout and Guest Flow

The layout is designed so that guests leaving the food giveaway naturally pass by the BBQ and vendor tables. This increases visibility and engagement with participating organizations.

Visibility and Strategic Value

The event is positioned to be visible to both walk-through and drive-through attendees. This reinforces its public presence and demonstrates readiness for future resiliency center operations and grant opportunities.
